RE: Docket No. 2011-271-E

Please do not allow Duke Energy to raise their rates 17%. This is exorbitant in this time of recession, and excessive at any time. No one (except perhaps the 1% who "own" our nation) receives a bonus of 17% per year. Most people's incomes are the same as they have been for years, or even lower after inflation.

If Duke Energy needs more money, a rate increase equal to the inflation rate should suffice. It is more than the vast majority of its customers ever get. If corporations are to be treated as persons, they should be subjected to the same constraints as individuals.

Sincerely,
Amy Buckingham
